

School Sports Funding

At Clapham Manor Primary School, we are committed to promoting the importance of good health and well-being for all of our children. We recognise the important role that Physical Education (PE) plays in this, as well as the positive influence it has on concentration, attitude and academic achievement.

What is School Sports Funding?

The government is providing funding of £150 million per annum for 5 academic years to provide new and substantial primary school sport funding. The funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school head teachers to spend on improving the quality of sport and PE for all their children.

How much money will we receive in 2015/16 for School Sports Funding?

Each school will receive £8,000 plus an extra £5 per pupil each year for the next 5 years. Here at Clapham Manor Primary School that will mean £9750 this year. The money can only be spent on sport and PE provision in schools.

How has the money been spent at Clapham Manor?

Item/Project	Cost	Details	Impact
	£8000	<p>Moving Matters is a specialist sports coaching company. We have used £8000 of the sports fund to employ Lewis Pruce to come in one day a week. Moving Matters has a long history and outstanding reputation for providing high quality support to primary schools in physical education and school sport. Mr Pruce has worked alongside staff to improve their specialist PE subject knowledge across a range of sports.</p> <p>He has provided children with specialist coaching in preparation for borough competitions through running numerous afterschool clubs</p> <p>It is a great opportunity for the children experience sport at a competitive level and for a few</p>	<p>Specialist training and small group tutoring have provided children with the opportunities to excel in a wide range of sports. We have seen a willingness and determination from pupils as well an increase in participation in PE. Teacher feedback has shown that childrens confidence, team spirit and self discipline have also improved.</p> <p>100% of teachers who have worked alongside Mr Pruce are feeling more confident teaching PE lessons as well as expanded their subject knowledge in PE. The impact of continued high quality PE lessons will give all children opportunities to become</p>

		children to be selected for specialist Gifted and Talented activities or the School Youth Games.	physically confident in a way that supports their health and fitness, developing both their physical and social skills.
School Sports Games Competitions 	£200	<p>Clapham Manor has entered a total of 14 competitions so far this year. This means that 150 children have had experience of competitive sport against other children in the Local Authority. We had great success at the Lambeth Indoor Athletic competition in February this year with Clapham Manor coming 3rd out of 45 schools. As well as winning the 5/6 netball cluster competition and year 4 tag rugby Local Authority competition in the Spring Term. The competitions have been a mixture of boys and girls including a girl's only football team. The variety of competitions meant we could offer opportunities to a wider range of children not just the children who excelled in a particular sport.</p>	<p>Teacher feedback has shown that children's confidence, team spirit and self discipline have improved due to the participation of these competitions. This has continued in the classroom with the pupils who have been involved, improving their self-discipline and behaviour in class. There has been a positive impact in class and pupils are more confident to work as a team and lead activities. During a pupil survey children commented that they would like to be involved in more competitions especially with other schools. This along with the release of the 'Seven is Heaven for Girls and Sports' report (research into girls losing interest and confidence in sport and PE by year 6) the impact of entering a girls only football team for a competition has led to increased participation from girls in all areas of PE as well increasing fitness and health for children of this age group.</p>
Chance to Dance 	£200	<p>Year 3 pupils have had the opportunity to work with the Royal Opera House as part of the Chance to Dance programme. All the children were given a Royal Ballet demonstration and took part in creative ballet workshops at the beginning of the year.</p>	<p>100% children were given access to a highly skilled professional dance teacher who gave high quality PE dance tuition. It opened the children's eyes to a new form of dance and music they would not necessary have access to or were interested in before. The children were given live firsthand experience of dancers in a professional and classical environment. There was 100% participation in the</p>

			final performance. The impact of this means the children's balance, stamina and resilience have improved as new skills have been introduced. Two pupils were chosen for intensive training by the Chance to Dance, joining 9 pupils who are already in the programme.
Football league 	£350	Fees for entering and competing in the Lambeth Saturday Football League. This is great experience for the children as well as helping them with their sportsmanship and teamwork. Money will also be used to pay for a member of staff to supervise children, taking them to matches on Saturday. To inspire pupils to achieve their personal best and encourage team work to score as many points as they can in cross curricular sporting challenges.	The football team won 9 out of 11 matches this year. The team are currently 3 rd in the fair play table. There has been a positive impact in class and pupils are more confident to work as a team and lead activities. Pupils are showing self discipline and independence and since becoming part of the football team. Teacher feedback has indicated that team members are motivated to do more in all areas of the curriculum and have developed a more positive attitude to school life. 2 members have been taken off the SEND register for behaviour.
PE equipment 	£1000	The School Sports Fund has also given us the chance to replace equipment as well as purchase a wider range of new exciting resources enabling teachers to introduce new sports to the children such as cheer leading – taught to the year 4 cohort and boccia.	New equipment has meant the PE curriculum has been broadened even further with the introduction of a Paralympics sport as well as a sport that has been popular with girls. Having the correct equipment has meant quality of lessons have been able to improve with more skills being taught. From the pupil survey children have expressed their enthusiasm for the new equipment and sports they are being introduced to.
La Crosse 	£250	To broaden the sporting opportunities and experience for pupils, additional specialist coaches have been employed	From our survey 85% teachers now feel confident when teaching a new sport in PE due to the support and

		<p>with the PE and Sports Grant money to teach alongside teachers. Specialised coaching using coaches from clubs to support skill development and club links: High Quality Teaching and Learning is the fundamental building block to a successful PE and school sport programme. In the Autumn term year 4 had the opportunity to take part in Lacrosse lessons and be taught by a qualified Lacrosse coach.</p>	<p>guidance from our specialist coaches.</p>
